

'MYKO PATIO KITS' TECHNICAL DATA AND INSTALLATION GUIDE

*Myko patio kits are coming with standard **Myko puzzle tiles** and **Myko border tiles** surrounding the edges. **Myko Adhesives** are provided according to customer requests. Adhesive usage is up to customer's request and it is not included in the price.*

Myko puzzle dimensions:

Length and width: 400 mm X 40 mm, Thickness: 25 mm

Myko border tiles:

Length: 400mm, Width 200 mm, Thickness: 25 mm

(There are 4 square borders for 4 edges of the Myko patio kit, 200 mm X 200 mm)

Installation Guide:

- Determine the installation area and the required depth for the floor according to the usage purposes (More less 2 cm depth is recommended).
 - The under floor surface must be even, dry and clean (Myko rubber tiles can be applied to all sorts of floors easily such as on concrete, on grass, on tarmac, and on aggregates...).
- * For the applications on concrete, adhesive is highly recommended and can be found in Myko products. You don't need to use adhesive for Myko Patio Kits. It is up to the installer's decision (Adhesive usage might be considered if the parents believe the kids might lift the interlocked tiles up. Myko Uk supplies adhesive in case of requests).
- Simply, enjoy interlocking the Myko puzzle tiles and Myko borders within minutes!!! (Myko Uk supplies the edge borders, please see the pictures).

Cleaning and Maintaining:

Regular cleaning, of the surface may be undertaken by brushing with a broom and /or washed with soapy water. Aggressive cleaning products should not be used.

For dirty surfaces may be with a pressure washer.
